## To: School Field Trip Coordinators

### Greetings from Pilot Tours

*We hope you had a great summer and off to a good start in the 2008-09 year. Planning a field trip for your grade level may be on your "to do" list. We can help. Pilot Tours has been planning and directing educational field trips for North Carolina Schools for 10 years. For "first timers," we can offer advice on fund raising, provide draft form letters to parents, typical rules and behavior expectations etc.) We simply share information provided by our school clients that travel frequently. Give us a call and one of representatives will be happy to visit with you during a planning period to review all the possibilities.*

**All Tours Include the Following:** *County approved late model motor coaches w/DVD and restrooms • High rated lodging with interior corridors • Security, as needed • A "Teachers Resource Packet" for the most popular tours to aid teachers in preparing students for the trip • Personal visits with teachers to aid in the planning process plus attending a parent meeting with teachers to review tour particulars and build trust and confidence • Complimentary tour for a specified number of teachers • All meals unless otherwise requested • All planned attractions.*

**2008-09 Estimates for most popular destinations:** *We know one of your first questions is going to be "About How Much will this tour cost?" With fuel prices, it's hard to predict but below is our best estimate to the most popular destinations. Every tour is customized to meet your needs. We will arrange and direct a tour for you to anywhere within the US.*
